Good Music but Poor Light.

Kalaka's birthday was further celebrated last night by a concert at the Hawaiian Hotel, given by the National band, formerly the Royal Hawaiian band. As usual a great concourse of all ages, sexes and nationalities thronged the grounds to hear the old favorites. Some bitter reflections were heard on the repetition of a dearth of electric current for lights in both the band stand and the hotel. It was observed that this deprivation of light only happens when the native band plays, while there is always a full current for illumination when the Government band plays at the same place. The hotel lights are in the Government's electric lighting system.

The Board of Health recommend that all drinking water be boiled and filtered. No one doubts the necessity of this precaution with our city supply, but those who drink

NAPA SODA

are always sure of its absolute purity. We warrant every bottle. NAPA SODA is a pure mineral water, just as it comes charged with sparkling gas from the bottom of mother earth. It is prescribed and recommended by the most eminent physicians. It is not one of the new "make-believe" natural waters, but has been in extensive use for twenty-five years. We furnish this "King of Table Waters" by the Bottle, Dozen or Case. We now have cases of Sixty Bottles, especially for families, at the very reasonable price of \$6 per case. NEW STEAMER AGROUND.

She Sticks on a Sand Bank on the Edge of the Channel.

The new steamer Keahou left on its first inter-island trip yesterday evening at 9 o'clock in charge of Captain Le Claire, formerly of the ill-fated steamer C. R. Bishop. The Keahou had been chartered by the Board of Health to take members and privileged visitors to the leper settlement on Molokai. W. O. Smith, president of the Board of Health, had charge of the expedition, the following being passengers: Miss Cook, Mrs. Brown, Captain Hawes, Bishop Willis, Father Leonard, Drs. Day, Weddick, Raymond, McGittigan and Murray; Messrs. Lansing, Ena, J. T. Waterhouse, Jr., C. B. Reynolds, J. D. McVeigh, W. L. Wilcox, J. W. Girvin, C. D. Chase, W. N. Armstrong, Rev. O. P. Emerson, Rev. J. Waiaman, Captain J. A. King and Frank Godfrey.

The Keahou backed away from the inter-island wharf promptly on time and headed out the harbor. The party on board was in a jolly mood. Shortly after the steamer had passed the lighthouse she stuck on a sandbank. The shock was not great, as the steamer was going at slow speed on account of the darkness. Those who watched her from shore saw that the little steamer had met with a mishap, and the services of the tug Eleu were solicited. The tug went out with Captain Godfrey and others on board. Hawsers were made fast and after a little pulling the Keahou was got off into deep water again. On examination it was found she had not been injured, and the Keahou continued on her way to Molokai. The Keahou stuck fast on the sandbank for about three-quarters of an hour. Her whistles and those of the tug attracted a crowd to the city front. A sensation was caused all over town when word passed round about the accident. The Keahou will return to-morrow morning.

The much talked-of road race between Terrill and Griffiths and a number of local wheelmen will take place a week from to-day. The cyclists are in daily training. Ruby Dexter has evidently improved considerably, and will make the pace hot for champion Giles in the coming race.

As a Rule

You do not get more than your money's worth when you make a purchase; and a great many times not quite that.

Your good common sense will tell you that most concerns, if they fulfilled the pledges made in their advertisements, could not last six months. "Look ABOUT" and with your good judgment decide who really carries the best selected stock; whose goods are of the "FINEST QUALITY" who gives "THE MOST FOR THE MONEY."

My goods combine the quality, with as low a price as same goods can be purchased anywhere. Such lines as I carry, cannot be purchased by remaining at home and writing for them; and for that reason I make my yearly trips to the markets of the World. Picking up a new line here, a few pieces there, until I have gathered together everything new and desirable in my many lines.

You'd be astonished to get a FINE UMBRELLA, handsomely carved head, with a fine stylish cane to match, both mounted in silver, for

\$8.50.

The set for this is about what a cane alone used to cost; and yet this is what we are offering you now; and this is only one of many articles at popular prices offered this season by

System Broken Down

Distress—Pains in the Back

New Life and Strength Given by Hood's Sarsaparilla.

"Dear Sir: I do not think there is any other medicine on the market so good as Hood's Sarsaparilla. I have taken only three bottles and am now in better health than for three years."

My System Was Broken Down so that my friends remarked upon my falling away. I could not keep anything on my stomach and I suffered terrible distress, especially in the left side. I had a severe pain in my back all the time so that I could not work.

Hood's Sarsaparilla Cures

Before I had taken one bottle of Hood's Sarsaparilla the pain in my back was gone, the first time for two years. I can eat anything and keep it on my stomach without distress afterwards. The trouble with my back is over and I can work all day as years ago. When people remark upon the change in my looks I tell them Hood's Sarsaparilla did it. S. SEWARD TAPLIN, N. Voinoy, N. Y.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 120 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years. The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.
"And by the use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.
"I continue to find the in gas from shredded cane better fuel than from whole cane.
"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratons.
"The shredder and engine require very little care or attention."
Plans and specifications of these shredders may be seen at the office of
